

INTEGRATIVE  
MEDICINE &  
ACUPUNCTURE

## Consent to Acupuncture Treatment

I understand that I will be receiving acupuncture and or cupping for the treatment of my health condition. I understand that acupuncture/cupping treatments in the state of Kansas are not a primary health care modality. I understand that seeing Dr. Nichols for acupuncture/cupping treatment does not replace the need for follow-up visits as needed for proper care of my condition.

**Potential benefits of acupuncture include:**

Drugless relief of my symptoms  
An improved state of health  
Reduced pain levels

**Potential risks of acupuncture include:**

Local discomfort  
Possible bruising and bleeding  
A potential for infection at the site of needle insertion  
In very rare cases pneumothorax

At Onyx Integrative Medicine and Acupuncture, all acupuncture needles are single-use, sterile, and chosen for maximum patient comfort and cups are cleaned between each use. All treatments are given in a peaceful and relaxing environment, with maximum privacy. Before treatment the skin will be prepped with alcohol, and needles may be placed both at the area of your complaint or in the hands/feet/etc.

I understand and consent to all of the above. All of my questions have been answered to my satisfaction.
